**Examiner's Amendment**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Simkanich on 12/1/04.

The application has been amended as follows:

In claim 1, line 10, after "second pathway position", --, the momentum is caused by a movement of the hinge mechanism— has been inserted.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach nor fairly suggest a momentum lockout hinge mechanism, in the entire claimed combination, including a ball positioned for free movement in a pathway from a first position to a second position, and the path way extends at least partially vertically to cause the ball to move against gravity when momentum is imparted to it, thereby moving the ball from the first pathway

position to the second pathway position; wherein the ball interferes with the movement of the first and second members when in the second pathway position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A. Williams whose telephone number is (703) 305-3438. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Knight can be reached on (703) 308-3179. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
